

LIA-BV Rack System

FEMTO offers a multi-channel rack system for the LIA-BV lock-in amplifier family of products. The maximum capacity is 8 boards per rack. It will come with a suitable power supply.

The BNC in-and outputs are on the backside, the switches for controlling the parameters on the front side. This system is for the LIA-BV(D)-150 with MK-LIA-2 mounting kit combination.

The standard rack will have no access point for the control interface. All parameters of the LIAs are set only through the front side switches.

If a digital interface is required please contact EOC.
