

## CO<sub>2</sub> Filter Comparisons

<b>CO<sub>2</sub> Filters:</b>	
<b>CO<sub>2</sub> Standard</b>	<b>General purpose standard filter for low AOI illumination (short or blackened cuvettes)</b>
<b>CO<sub>2</sub> Narrow</b>	<b>Same BW as InfraTec reference channel and so the same signal voltage of gas and reference channel</b>
<b>CO<sub>2</sub> High AOI</b>	<b>For high angular illumination in high reflective (gold plated) cuvettes</b>
<b>CO<sub>2</sub> Long path</b>	<b>For measurement of high CO<sub>2</sub> concentration (percent) using a long optical path (about 10cm) in multi gas analyzers</b>
