

Hydrogen Chloride (HCl) Sensors with No Bias

The SemeaTech Hydrogen Chloride (HCl) sensors are designed to operate with **No Bias Voltage Requirement**. This innovation eliminates the need for sensor warm-up time, streamlining gas monitor design and ensuring a more stable baseline with improved resolutions when compared to other Hydrogen Chloride (HCl) sensors requiring bias.

4HCL-20	0 – 20 ppm	0.2ppm Sensitivity	4 Series
4HCL-50	0 – 50 ppm	0.2ppm Sensitivity	4 Series
7HCL-50	0 – 50 ppm	0.2ppm Sensitivity	7 Series
