# SORTING & RECYCLING

Fast and energy resolvable detectors for high throughput sorting facilities.

Recycling and urban mining are fast growing industries to minimize resources, energy and waste. With over 27 years of experience in material detection KETEK offers analysis systems employing one-stop XRF and XRT solutions.

## KEY FEATURES

- Dynamic range
- Fast recovery
- Low XT
- Mechanically robust
- Narrow pitch
- Customized array solutions

## APPLICATIONS

- Cargo Scanning
- Sorting & Recycling
- Border Control
- Mining
